
e-Estonia: building a digital government

SIIM SIKKUT

ICT Policy Adviser
Government Office

RIIGIKANTSELEI

Basic facts: e-Estonia today

- **80% of population** are internet users
- Internet access everywhere (100Mbps+ by 2017)
- **Strong eID** since 2002 (ID-card and mobile-ID)
- 136+ mln **digital signatures** to date
- ICT sector leads the economy

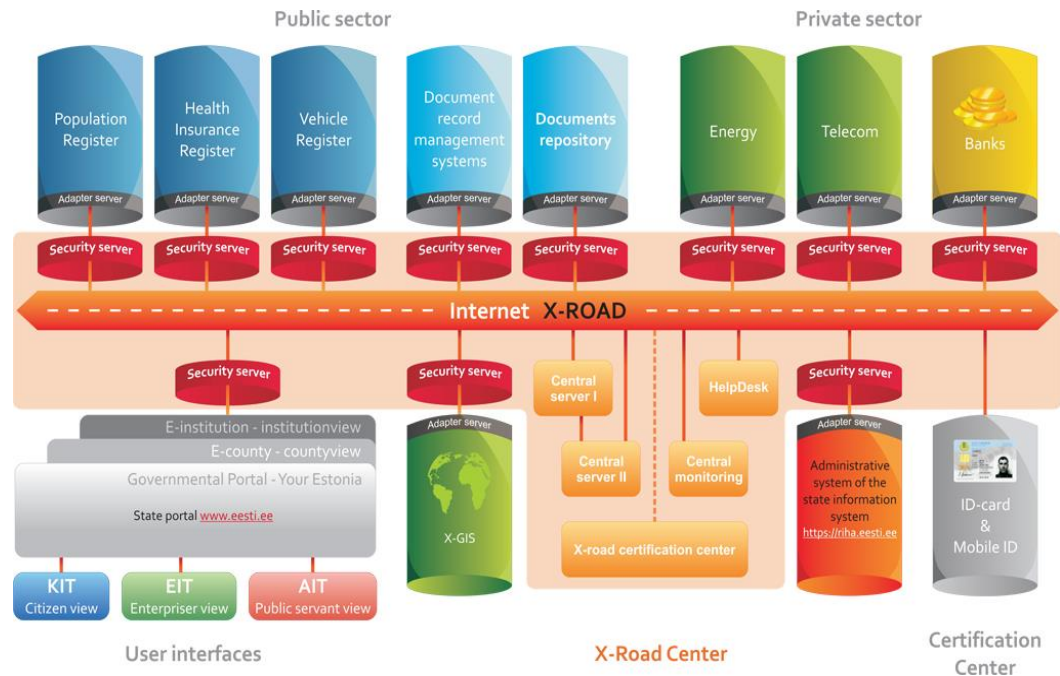

3 milestones of digital govt.

- **18 min. to establish a company online**
- **96% of people declare taxes online**
- **25% of people vote online for parliament (2011)**

Building blocks: for all to use

National eID and X-road: since 2002

Government can lead the way

e-Cabinet: paperless government since 2000

Vision 2020

**e-Estonia
is a prime place
to create and test
smart e-solutions**

Future: co-creation

The screenshot shows the homepage of e-estonia.com. At the top left is the logo for e-ESTONIA, described as 'The Digital Society'. Navigation links include 'e-Estonia', 'Components', and 'Case Studies'. A search bar is located on the right. A large banner image features a smiling woman and a blue police light bar, with the text 'Safer Streets Through Technology' and 'Serving and protecting with the help of e-Police systems'. Below the banner is a 'Welcome to e-Estonia' section with a paragraph of text and a 'Learn more' link. To the right is an 'About Estonia' section with a map of Estonia and another 'Learn More' link. At the bottom left, there is a 'Digital Society Components' section with four cards: 'Electrono ID Card', 'I-Voting', 'X-Road', and 'Mobile-ID'. At the bottom right is a 'Find us on Facebook' section showing the 'E-Estonia' Facebook page profile and a list of users who like the page.

Thank you!

Go and check
e-Estonia out
yourself!
